fundraising **bunting** template

How to make your bunting:

- 1 Print out lots of copies of the bunting and cut out each flag.
- 2 Fold along the dotted line so the tabs are hidden at the back.
- 3 Fold the tabs over a piece of string and use tape or glue to hold them in place.
- 4 Get creative and colour your own bunting using the back and white flag templates. You could also design your own images using the plain flag template.
